**Abstract**

This note is written to show that the definition of the LA- $\Gamma$ -hypersemigroup and the definition of the ordered LA- $\Gamma$ -hypersemigroup in [2] should be corrected and that it is not enough to replace the “ $\Gamma$ ” of the ordered LA- $\Gamma$ -semigroup by “ $\circ \Gamma \circ$ ” to pass from an ordered LA- $\Gamma$ -semigroup to an ordered LA- $\Gamma$ -hypersemigroup. The definition of the  $(m, n)$ - $\Gamma$ -hyperideal and the strange symbols used throughout the paper have no sense as well.

**Keywords:** LA- $\Gamma$ -semihypergroup, ordered LA- $\Gamma$ -semihypergroup,  $(m, n)$ - $\Gamma$ -hyperideal.

**2010 Mathematics Subject Classification:** 06F99.
